

Label Unwind Direction Chart

Mail Source Inc.

Please coordinate the label roll direction with your CSR.

Label unwind direction is determined by product travel direction, machine unwind, and print direction. Labels placed at an angle to the substrate still fall within these parameters.

Please confirm all manufacturing specs. with your CSR.

- The following specifications must be met.
- Core size max: 3" - 5" Roll Specific
- Roll size max: 20"
- Black liner between labels Preferred.
- Label Min: 3/4"x 3/4"
- Label Max: 5" x 6"
